

WEBINAR

201SPR01 – Using JavaScript and Firebase

This session covers Databases in JavaScript using an online cloud database. We aim to cover fundamentals, pedagogical approaches and activities, to help you in your classroom for leaving certificate computer science. We will cover accessing 2D data from a Google Firebase, displaying the results and then inserting data into the Firebase Database. While we will cover content the goal is to work on how to deliver such content in the class, basing our approaches on “use, modify, create” and PRIMM with suitable take-home activities.

This workshop will be delivered online and a link to login will be emailed to participants on the morning of the course. If you do not receive the link in your Inbox please check your Spam or Junk folder

Date: Tuesday, 2 March 2021

Time: 6.00 – 8.00 pm
